

Regarding the issue affecting the future of the K-LOVE broadcast signal in the Des Moines metro area. We are concerned because K-Love is one of our favorite radio stations that we listen to on a daily basis, wheather it be at home,work or in the car. In the past we have not had access to a station that offers the positive-encouraging programing that is family friendly,has wholesome values,great music and inspirational topics that touch so many lives in our community. It would be a great loss if K-Love were to be replaced by a LP translator service therefore compromising the quality that we have come to rely on for having this type of radio station available to us and the hundreds of thousands of listeners that it would effect. Thank you for your careful consideration of this issue and how it would effect so many lives if K-LOVE was not a choice in offering this type of quality radio broadcasting.
